COMBINES & HEADERS

COMBINE & HEADER INSPECTIONS

250+ Point Inspection (STS & WALKER) \$695

STS Ref. # 141132 | Walker Ref. 141133

Leveling System Inspection \$149*

**In addition to 250+ Point Inspection | Ref. # 141134*

John Deere Performax Header Inspection & Adjustment \$250

Good for any model header. Additional labor at standard rate. | Ref. # 141360

Inspection Includes:

- Sickle bar knife, hold down, and guard inspection and adjustment
- Wobble box inspection
- Auger and stripper clearance inspection and adjustment
- Belt, roller and track inspection if applicable

Let Papé Optimize Your Hillside Yield

You can count on our patent-pending solutions to improve your equipment's performance. Combine separation is compromised on hillsides. Leveling provides the necessary side-to-side enhancement, but not all fields can be harvested on the contour, regardless of the manufacturer. Compatible with current John Deere S Series combine models and many older John Deere combines, this special modification is now available. If you want to improve your machine's uphill and downhill performance, see your specialist at Papé Machinery.

Inspections Include:

- Fuel System
- Operation Station
- Solution System
- Chassis
- Electrical Systems
- Cooling System
- Hydraulic & Hydrostatic System
- Boom
- Extendable Axles
- Foam Marker System
- AMS Components
- Read and Evaluate Error Codes
- Machine Software Update

SPRAYER INSPECTIONS

Self-Propelled Sprayer Inspection \$669

Ref. # 141135

Pull Type Sprayer Inspection & Calibration \$339

Ref. # 141136

Sprayer Winterization \$195

John Deere winterize fluid additional based on size of machine. | Ref. # 141137

Sprayer Inspection for Live Certification \$195

Ref. # 141138

Inspection Includes:

- Check pump performance
- Check pump calibration
- Perform maintenance of tank, sprayer head, pump and chassis

TRACTORS

Tractor Inspections That Keep You in the Field

Your tractor is the work horse of your operation. Whether you're planting, baling, spraying, or tilling, make sure to maximize your tractor's performance with one of our quality inspections and ensure it's ready to roll when the work needs to get done.

Sign up today for an inspection and gain the confidence of knowing that you'll be ready to go when you need your tractor most.

SERVICE OPTIONS

Hydraulic System Performance Tune Up \$235

Ref. # 141141

Fuel System Chemical Clean \$285

Fuel filters not included. | Ref. # 141144

Transmission Calibration

Contact your dealer with model for pricing options

Ref. # 141147

**Price based on 100-200 HP Units*

TRACTOR INSPECTIONS

100 HP & Above \$495

Ref. # 141139

Engine Performance Check \$95 w/ Any Other Tractor Service

Ref. # 141140

Inspection Includes:

- Engine Dyno*
- Check high and low idle speeds
- Check crankcase pressure
- \$135 stand-alone pricing

**Available at select locations*

455 DRILL UPDATE SPECIAL

Reduce inputs and increase efficiencies with these Papé exclusive updates to your 455 Drills.

On-site inspection included. Price includes parts, labor and travel.

Section control with 3 section shut off, installed

W/ rate controller \$3,850

Ref. # 138097

W/o rate controller \$2,800

Ref. # 138101

Seed boot window upgrade, installed

30' w/ 7.5" spacing \$350

Ref. # 141151

DRILL INSPECTION **Drill Inspection \$95** Ref. # 141152

50' DRILL OFFER

Acculevel Agriculture Systems

- Transportable 50' drill and hitch assembly
- 750 gallon tank on the tongue
- Tandem axle follows the terrain
- Air bag suspension assists in carrying the load when folded and moving which automatically lessens the down-pressure in the field
- Hydraulics split in two sections for control
- Four individual 12.5' boxes allow flexibility for terrain
- Holds on the hills like the 35' model

HAY EQUIPMENT

Papé Machinery's Hay Inspections Make Sure Your Equipment is Ready When the Crop is.

You know that time to put up hay is a small window of opportunity. Don't be caught with unforeseen repairs when it's time to get the crop out of the field.

Our hay inspections will look at all areas of your equipment and give you the solutions to get the crop under cover.

HAY EQUIPMENT INSPECTIONS

2-String Baler Service Program \$495

Ref. # 141153

- Pick-up and delivery within 25-mile radius
- A thorough cleaning and inspection of your baler, including plunger removal, to determine suggested repairs.
- Sharpen and adjust knives
- Adjust all baler functions to factory specifications
- Service Knotter lube and hydraulic system

3-String Baler Service Program \$1,095

Ref. # 141154

- Pick-up and delivery within 25-mile radius
- A thorough cleaning and inspection of your baler, including plunger removal, to determine suggested repairs
- Sharpen and adjust knives
- Adjust all baler functions to factory specifications
- Check Knotter lube and hydraulic system
- Service engine, including replacing all filters and engine oil

**AVAILABLE FOR ALL
MAKES & MODELS!**

Hesston 3-String Baler Chamber Conversion Kit \$3,950

Ref. # 141155

- 1" Chamber Kit
- Combination UHMW & steel components
- Cut plunger
- Can convert a 15"x22' to the new popular bale size of 14"x21"

Large Square Baler Inspection Program \$495

Ref. # 141158

- On farm within 25-mile radius or customer drop-off
- 44-point inspection
- Lube annual grease points
- Check baler timing

Round Baler Inspection \$395

Ref. # 141157

- On farm within 25-mile radius or customer drop-off
- Check pick-up
- Inspect chain drives
- Check wheel bearings
- Check belt size (splices are not included)
- Test monitor operation
- Inspect bearings
- Check bale-wrapping / tying -systems
- Inspect rear door operation and adjust latches

DON'T MISS OUT ON THESE VALUABLE OFFERS!
SCHEDULE & SERVICE YOUR EQUIPMENT
BEFORE FEBRUARY 28, 2021

WINDROWERS

WINDROWER INSPECTIONS

Self-Propelled Windrower Service \$895

Ref. # 141159

- Inspect cutting platform
- Check all belts
- Check drive system
- Dial indicate cutter bar
- Change all Filters

Moco and Header Inspections \$295

Ref. # 141160

- Check cutterbar
- Adjust conditioner
- Check slip clutch function
- Lubricate and check all fluid levels

Legacy Air | Airflow Integrated Rotary

This machine is designed to offer the ultimate speed, windrow quality, and seed savings with rotary machine performance. The exclusive feature is the rotation to center design that enables air flow and crop to “want” to go to the center of the machine.

Features

- Fingertip Controls Integrated AutoTrac
- Fast Rotary Cutterbar Speed
- Air Assisted Crop Movement
- Set and Monitor Drum Speed
- Target RPM
- Power Meter
- Knockdown Bar
- Water Spray & Timer
- Service Reminders

Results?

Windrows that provide easy, uniform feeding at harvest time with maximum seed on the plant.

FLUID ANALYSIS PROGRAM

Ask Us Today About These Valuable Programs!

Improve Fuel Efficiency Engine Performance and Productivity

The pressure requirements of today's diesel engines' fuel injection systems operation can transform small particles of dirt, dust, and rust into extremely abrasive contaminants that can severely damage components. Many modern injectors cannot be serviced and must be completely replaced if damaged. We can do a complete fuel system chemical cleaning on your diesel engines to help eliminate harmful contamination.

Fuel Testing Analysis

When was the last time you tested the fuel in your storage tank? Contamination and algae growth, can limit engine performance, reduce filter life, and cause significant injector or engine damage. Modern diesel engines are more sensitive to contaminants than ever, making fuel testing a necessary part of fuel storage. You can count on Papé Machinery as your source for complete fuel testing and treatment supplies.

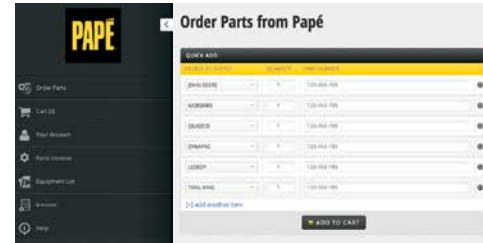

A comprehensive fluid analysis program is a proven tool to help reduce downtime, lower overall operating costs, and keep your equipment operating at maximum performance. Fluid analysis keeps you up-to-date on the condition of all your machine's major components and helps you make smart decisions on what proactive steps can be taken to maximize machine productivity.

PARTS ONLINE

The Papé Portal's built-in Insight Engine enables you to quickly and easily make decisions to manage your parts.

Papé offers the largest heavy equipment parts inventory in the West. You're sure to find what you need among our selection of 15+ million OEM and aftermarket parts.

- Look up parts via John Deere Parts Advisor
- Order parts whenever and wherever with 24/7 access
- Send special instructions with the order
- Update your account information
- Review real-time parts pricing
- Browse on-hand inventory
- Select delivery methods
- Access parts invoices
- Saved parts lists
- Equipment lists
- Invoice lookup

Visit our Parts Portal: <https://agriculture.papemachinery.com/parts>

Contact your local CSA or Parts Representative to get set up with a username and password.

RENTALS & USED EQUIPMENT

RENT TO OWN

- Try before you buy
- Apply % of rental if purchase
- Rental period can last up to 6 months
- 1 month minimum

**Terms apply*
